### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly disclose the claimed method for the recovery of useful components in an electrolytic phosphate chemical treatment bath, in particular the step of subjecting the washing water having dilute phosphate chemical treatment liquid to an electrodialysis step and recovering and returning useful components to the chemical treatment bath.

While the electrolytic phosphate chemical treatment bath is known, the use of electrodialysis to concentrate the useful components in said rinse water to prevent the loss of said useful components is not shown or disclosed in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
